About Me

Pre-final year student of computer science with practical project experience, expertise in Python, JavaScript, React, Tensorflow, Tailwind CSS, and machine learning, and a strong desire to develop original solutions and address data-driven Problems.

Education

Chaibasa Engineering College, Chaibasa	2022- 2026
Bachelor of Technology (B. Tech) – Computer Science and Engineering	SGPA- 7.5

Projects

1. Image Captioning using Deep Learning

Tools: Python, TensorFlow, Keras, VGG16, NLTK, Streamlit

Dataset: Flickr8k

- Built a deep learning model combining a CNN (VGG16) for image feature extraction and an RNN (LSTM) for sequence generation.
- Preprocessed dataset with tokenization, vocabulary creation, and sequence padding for training captions.
- Implemented image enhancement and compression features for better model performance.
- Added multilingual caption translation using Google Translate API.
- Deployed a clean and interactive web interface using Streamlit for real-time caption generation on uploaded images.

2. Desi Dhvani – A Music Listening Platform

Tools: HTML, CSS, JavaScript, React, Unofficial YouTube API (Invidious/Piped/YouTubei.js), Pixabay Music API

- Developed a web-based music player with offline and online modes for music playback.
- Integrated unofficial YouTube API to fetch and play songs directly on the platform.
- Designed a responsive UI with black and blue theme and a personalized greeting screen.
- Added features like synchronized playback, playlist management, and genre-based browsing.
- Implemented streaming from Pixabay's free music library for copyright-safe music options.

Technical Skills

Programming Languages: Python, C, C++, SQL, Java(Basics)

Frontend Development: HTML, CSS, JavaScript, React.js, Responsive Web Design, Git & GitHub, Machine, Npm

Learning: NumPy, Pandas, TensorFlow, Keras

Tools: MS Excel, Power BI, MySQL, Jupyter Notebook

Certification

Google IT Automation with Python – Coursera

Image processing with Deep learning – Bit Sindri, Dhanbad
